

**ORDINANCE NO. 3-2018**

**AN ORDINANCE CREATING SECTION 5-10 ENTITLED “PERMITTING THE  
MANAGED CARE OF FREE-ROAMING CATS” TO THE REVISED GENERAL  
ORDINANCE OF THE TOWNSHIP OF ABERDEEN**

**New Section 5-10**

**WHEREAS**, the Township Council of the Township of Aberdeen is aware of the problems in the Township caused by a large feral cat population; and

**WHEREAS**, feral cats are cats that are significantly or completely unsocialized and not adoptable as companion animals; and

**WHEREAS**, there are no facilities in the Township of Aberdeen or the County of Monmouth to address issues created by feral cats; and

**WHEREAS**, the population of feral cats has been increasing in the Township; and

**WHEREAS**, communities throughout the United States have determined that the practice of trapping and euthanizing feral cats is not effective in reducing their numbers; and

**WHEREAS**, a present goal of Trap-Neuter-Return (TNR) is to decrease the number of cats in the environment and thereby reduce feral cat predation on wildlife; and

**WHEREAS**, programs for the managed care of feral cat colonies that include trapping, neutering and returning such cats to their habitats have proven to be effective in reducing the number of feral cats and is more humane than trapping and euthanizing; and

**WHEREAS**, TNR programs are beneficial to communities and the public health because cats in managed colonies are vaccinated against rabies, which has positive public consequences and are spayed or neutered, thereby controlling the population; and

**WHEREAS**, the Township Council deems it in the public interest to amend its ordinances in order to meet these stated goals.
